

## KIOWA AND COMANCHE

Reservation Bill Yields Flynn  
New Laurels.

### BOTH HOUSES ACCEPT IT

"City Hall" Bill Engages  
Flynn's Final Efforts.

(Special Dispatch to the Eagle.)  
Washington, June 6.—The report of the conference committee on the Fort Hall reservation bill, carrying with it the provision for the opening of the Kiowa and Comanche country, was agreed to in both houses at 2 o'clock this morning. Flynn has succeeded in securing the passage through the senate of the bill amending the act limiting territorial indebtedness, better known as the "City Hall" bill. The president today signed the act.

### MILL FIRE AT POND CREEK

Engine House and Corn Elevator Lost  
but Building Saved.

Pond Creek, O. T., June 6.—At about midnight last night the engine house of the Pond Creek Mill and Elevator company was discovered to be on fire. The alarm was given and in a very few minutes several hundred men were on the ground. Although the engine house stood fifty feet north of the mill it was at first given up by everybody that the splendid mill would be lost, but the wind was a mere breeze from the south and the people concluded to take desperate chance to save the mill. While great quantities of water were thrown against the south side of the engine house ladders were run up on the north side of the mill at intervals, and manned, and a constant supply of water was handed up to buckets. Others stationed on the edge of the roof were also supplied with water carried up through the mill. By this clock-work movement of the bucket brigade the north side of the mill was kept drenched with water and the whole building stayed. The corn elevator and entire west of the engine house were totally destroyed, with the engine house. A rain came up and assisted in the final putting out of the fire, after all danger was passed, however. It was a narrow escape and it was generally remarked that a more disastrous effect on the part of a bucket brigade and the citizens was never witnessed. Had the wind been from the northwest the entire business portion of the city might have been destroyed. One of the officials of the mill remarked that they would rebuild the engine house in stone or brick, and commence at once.

#### Electricity in Capes.

This new compound, which is made from cheap chemicals, is put up in capsule form and when added to a certain quantity of water will furnish electricity enough to light a house, drive an automobile or even a railroad train. But this is nothing compared to the strengthening power contained in a bottle of Hayster's Stomach Bitters. It cures indigestion, dyspepsia, biliousness, liver and kidney troubles and fills the system with the vigor of health.

### WITH MURDER AND ROBBERY

OF W. H. DAVIS, J. H. Salyer Is Charged  
at Oklahoma City.

Oklahoma City, O. T., June 6.—The Oklahoman says: James M. Salyer is in the county jail charged with the murder of William H. Davis, whose dead body was found Sunday morning at 11 o'clock near Arcadia. He denied his guilt, but told such compelling stories that the officers of the sheriff's office and County Attorney Taylor believe him to be a guilty man. They say the native was robbery, Salyer and Davis lived at Independence and Leavenworth, Mo., respectively, and last October they started out in a wagon on a prospecting tour, the prime object of Davis being to find a suitable farm he could buy. He had about \$800 in money while Salyer had but \$10. They traveled through Southern Missouri, Oklahoma and Indian Territories, and on February 17 they were seen at Arcadia. Davis had a friend near there named Nat Hughes, and they walked to his home about two miles in the country to see him. In the early part of the afternoon they left together, and that was the last seen of Davis until his dead body was examined from under a heap of rock dirt and leaves by Clyde Pitch of Arcadia, one of a large party of searchers under Sheriff Copeland. A few days later a man representing himself to be Davis appeared in Guthrie and sold the team and outfit and some clothes, as well as drawing some money out of the State National

**Bed-Time.**

Going to bed to tumble and toss and dream; to pursue in vain the phantom sleep through long weary hours and rise to a new day unrested and unrefreshed. That is the way with many a woman, who is tormented by the sores and pains resulting from female weakness, and other diseases of the delicate organs of woman. Dr. Pierce's Favorite Prescription was made to cure just such cases and it does what it was made for. It heals ulcerations and inflammation, dries debilitating drains, cures female weakness, strengthens the body, soothes the nerves and enriches the blood. It gives lasting strength for the day and sound sleep for the night.

The author suffered continually—writes Mrs. J. Dennis of St. Louis, Mo.: "I suffered from the medical treatment of my physician, until induced to try Dr. Pierce's Favorite Prescription. I began to improve, taking this medicine I weighed ninety-five pounds. It built me up until now I weigh 122 and feel well. I have never weighed before, I was so bad I should be dead due to day and death to night if I had not taken Dr. Pierce's Favorite Prescription. I am a woman, about forty years old, and have always paid out each dime every month. But now I never have a pain, and my weight is 122 and I am feeling well and strong again. Thanks to Dr. Pierce's Favorite Prescription."

Biliousness is banished by the use of Dr. Pierce's Pleasant Pellets.

## HOW HE GOT WALCHER

Deputy Fossett's Story of a Scheme That Failed.

### COLLUSION OF OFFICERS

Texan and Mexican, Who  
Tried to Hog a Reward.

Guthrie, O. T., June 6.—The Capital has the following on the bringing back of Walcher, the man accused of the murder of Colonel John F. Stone in Kingfisher county last January, from Mexico by Chief Deputy Marshal Fossett:

Deputy Marshal Fossett returned to Guthrie yesterday afternoon and was seen at his home, 117 West Cleveland avenue by the State Capitol man in regard to his trip and the manner of procedure in securing Walcher. The latter had been held in Juarez for two months awaiting extradition to the United States. Last week he was mysteriously passed to the American side of the Rio Grande river and Governor Barnes was at once notified by Ambassador Powell Clayton, Governor Barnes communicated with Governor Sayers of Texas and the sheriff of El Paso county was ordered to hold the prisoner. Deputy Fossett was dispatched at once to El Paso, carrying with him a warrant issued by the president of the United States, for Walcher's arrest—a document that is supreme wherever presented in Uncle Sam's domains.

"There is no doubt in my mind," said Marshal Fossett, "that Walcher was turned over to Texas by the Mexicans for any other reason than to obtain the reward offered for him. A conspiracy had been entered into between Mexican and El Paso county authorities to secure the reward and divide it between them.

They gave the thing away as soon as I demanded the prisoner in producing a card which had been sent out last January by Sheriff Kelley of Kingfisher county. The card gave an account of Colonel Stone's murder, description of Walcher, and stated that \$20 reward had been offered by Oklahoma's governor and that Kelly would give an additional \$20 for Walcher in any jail in the United States. The Mexicans and Texans were thus planning to get Walcher into an American jail and secure the prize money.

"When I first arrived in El Paso I called at the court house, saw Chief Deputy J. H. Comstock and stated my business, showing the papers I carried. I found that the Mexicans had brought Walcher to the middle of the Rio Grande bridge, where he was received by the Texas officers. She walked up to him and put her arms around him immediately with a fond caress. Then she seated herself in a chair, just as close to him as she could get, and talked to him in a low voice. Mrs. Salyer is a rather pretty little woman, and she was dressed in a natty shirtwaist, a blue serge skirt and a soft white hat. She has large expressive blue eyes.

BOOM IN OKLAHOMA LANDS

Wood County in the Edge of Harvest  
...Ballyhooing Is Ballying.

Augusta, O. T., June 6.—This section was visited by a fine rain Monday night if the weather remains favorable many pieces of rye will be cut this week. Farm land is rapidly advancing in value and Oklahoma is threatened with a boom similar to the one experienced by Kansas fifteen years ago.

The active work on the Kansas City, Mexico and Orient railroad is putting new life into business here and business men and farmers are both rejoicing as the time is not far distant when we will be connected by rail with one of the best markets in the west—Wichita—and the Eagle, with its many readers here, can well be pleased in securing this new territory.

Mrs. E. W. Kary, Marion, Ind., who has been ill for years, writes: "I was tired, could not sleep or eat, and was rapidly going into decline. Doctors called it blood disorder, but could not cure me. I am now in perfect health and give all the credit to Beggs' Blood Purifier." J. P. Allen, Deckum & Highison, Geo. Van Werden.

### LATE DEVELOPMENTS IN STEEL

Joliet Company Dissolved—Drop in  
Bessemer and Foundry Iron.

Chicago, June 6.—A certificate of dissolution of partnership in the Joliet Steel company was filed with the recorder of Cook county today. The instrument states that the debts of the corporation have been discharged and the assets divided.

The certificate states that the decision to dissolve the corporation was reached at the stockholders' meeting held May 21. Secretary Green signed the certificate, which is attested by President Sum of the steel company. The Joliet Steel company owned several large mills at Joliet, Ill., and was controlled by three Illinois steel companies.

Secretary Green made the following statement: "The Joliet Steel company was purchased by the Illinois Steel company in 1889 and practically has been out of existence ever since. When the transfer of the plant was made there were a few small parts which were not taken by the purchaser and the company had simply maintained its formal organization to look after these small interests. All had been dissolved by the stockholders resulting in the filing of the certificate to-day, marking the formal dissolution of the concern."

Chicago, June 6.—The Chronicle-Telegraph says today that a sharp price of Bessemer and foundry iron has taken place this week and that a meeting of the Bessemer Purchasing Committee is to be held in Cleveland Saturday. It is stated that authority will be given for the balance of the year to be fixed at \$20. Valley furnaces, and that the rate will be definitely maintained. As the prices on iron and steel products are founded on the rates for Bessemer pig iron, says a resolution in at times of finished products may be increased. Bessemer steel billets are selling at \$20 a ton this week, a drop of \$7 since the opening week.

Deputy Marshal Fossett secured Colonel Stone's watch which Walcher took from the murdered man's body, but left it in Kingfisher. Walcher wore it to the jail at once in a car. I do not know when his preliminary trial will occur, but the district court there will convene again on June 21. His plea will be insanity, I suppose."

Deputy Marshal Fossett secured Colonel Stone's watch which Walcher took from the murdered man's body, but left it in Kingfisher. Walcher wore it to the jail at once in a car. I do not know when his preliminary trial will occur, but the district court there will convene again on June 21. His plea will be insanity, I suppose."

The watch was a present to Colonel Stone from United States Attorneys Harlan and Speed and bore the names of both men on the inside of the case. This case has been removed and thrown away or disposed of. There is no doubt, however, of Walcher's having the Stone watch. All who knew Walcher and the watch identify both of them. Judge Barker of this city is

LADIES CAN WEAR SHOES

One size smaller after using Allen's Foot Ease. Foot Ease is a new article of the shoe. It makes tight or new shoes fit again. It gives instant relief to cramps and spasms, rheumatism, gout, sciatica, epilepsy, pleurisy, etc. It is made of leather, cotton and wool. It costs \$2.50 per pair. There was an increase of \$2.50 per pair. There was an increase of \$2.50 per pair. The price of Foot Ease packages \$1.50 per pair. Address Allen's Foot Ease.

Walcher's attorney and will defend him when tried.

## INSTRUCTED FOR BRYAN

Continued From First Page.

the pledges of the republican party have been violated in Porto Rico legislation. Independence is withheld from the Cubans in defiance of law and national promises. Slavery is recognized and protected in Cuba and involuntary servitude in Hawaiian, in violation of the constitution."

After condemning the present administration the platform demands a repeal of the stamp tax, declares for the election of United States senators by a direct vote; opposes a large standing army; extends sympathies to the people of the Transvaal and the Orange Free State, demands the strict enforcement of the Monroe doctrine and the construction of the Nicaraguan canal and denounces the Hay-Pauncefote treaty as an abject surrender to England; denounces the Dingley tariff bill and declares opposition to protective tariff. The platform concludes with an expression of gratitude to American soldiers in all the wars and denounces the pension department of the present administration.

The resolutions were unanimously adopted.

John Worth Kern, the nominee for governor, was born in 1848 in Alto, Howard county, Ind. After a course in the common schools he entered the University of Michigan and was graduated from the law department in 1869. He began his profession as a lawyer at Kokomo, Ind., and in 1871 was elected city attorney, which office he held for many years. In 1884 Mr. Kern was elected reporter of the supreme court. He was defeated for re-election in 1886 and took on the practice of law in Indianapolis. In 1892 he was elected to the state senate and served during the sessions of 1892 and 1896. In 1897 Mr. Kern was appointed city attorney for Indianapolis, which position he still holds.

### STEUNENBERG IS INDORSED

By Idaho Democrats—Issue on Coeur

D'Aleme Troubles.

Lewiston, Idaho, June 6.—The forces of Governor Steunenberg triumphed in the state democratic convention by seating the contesting delegation from Shoshone county, friendly to the governor, the vote being 152 to 77. The result is a practical endorsement of Governor Steunenberg's administration as the fight in the convention was almost entirely on that line. The opposition to the governor made a stubborn fight for two days, and debate on the report of the credential committee lasted four hours. Only indirect reference was made to the Couer d'Aleme trouble, as the fight in the convention was almost entirely on that line. The opposition to the governor made a stubborn fight for two days, and debate on the report of the credential committee lasted four hours. Only indirect reference was made to the Couer d'Aleme trouble, as the fight in the convention was almost entirely on that line.

"For the increase of the navy the amount estimated for appropriations at this session is \$10,000,000 for the construction of armament and equipment of battleships, cruisers, gunboats and torpedo boats heretofore authorized, and is no more than is absolutely necessary toward placing the navy expeditiously in the proper condition universally demanded by the people for the national defense.

"Much of the natural increase is attributable to the increased number of departments in the treasury and navy departments incident to the war with Spain, although no part of it is included in the table which is submitted of increased appropriations on account of the war."

"Under permanent appropriation act of \$6,000,000 interest on the war loan of \$20,000,000 for the redemption of circulating notes of national banks out of funds deposited with the treasury for that purpose—the transaction being purely one of bookkeeping and in no way affecting the public funds. The amount of estimated redemptions out of bank funds is simply \$4,000,000 greater than in 1898, and by process of bookkeeping that amount is added to the appropriation for 1900.

"An increase of \$6,000,000 is made in the amount estimated to meet the requirements of the sinking fund for 1900 over the sum estimated and included in the appropriations for 1898. This increase is on account of the Spanish war loan of \$20,000,000. The appropriate amounts, as nearly as can be determined, are \$2,000,000 on account of or incident to Spain and \$4,000,000 on account of or incident to the Spanish war loan of \$20,000,000.

"Of this whole sum it is estimated by the treasury department that to June 1, 1900, the total expenditures will not exceed \$10,000,000, leaving a surplus of \$1,000,000 after meeting outstanding obligations. Thus, for the conduct of that momentous war and its resultant effects Congress made an additional appropriation of \$1,000,000, and by process of bookkeeping that amount is added to the appropriation for 1900.

We have a supply of prepaid tickets to the old countries to the United States.

E. H. BLACKLEY, P. and T. A., 114 North Main Street, Wichita, Kan.

## Skin Diseases

When the excretory organs fail to carry off the waste material from the system, there is an abnormal accumulation of "fete matter" which poisons and clogs the blood, and it becomes sour and acid.

This poison is carried through the general circulation to all parts of the body, and upon reaching the skin surface there is a redness and eruption, and by certain peculiarities we recognize Eczema, Tetter, Acne, Salt, Rheum, Psoriasis, Erysipelas and many other skin troubles, more or less
